

Application for the Linda Michaluk Scholarship

The Linda Michaluk Scholarship (LMS) is a scholarship of \$2,500 established to honour the contributions to the College of Applied Biology by the founding Chief Executive Officer (Executive Director). The College of Applied Biology is the regulatory body for regulated applied biology professionals working with natural resources in British Columbia. The purpose of the scholarship is to provide financial assistance to a Master or Doctorate of Philosophy degree candidate at a Canadian university whose project advances science-informed decisions/decision making in the public interest with respect to natural resources in Canada. The scholarship will be awarded to an individual whose project aligns with the scholarship's purpose.

Application Scoring

Scholarship applications are awarded a score out of 100 points. There are three sections that your application is scored on. They are as follows:

1. Abstract 10 Points. A well-written thesis, dissertation or project abstract that clearly communicates the purpose of your research (maximum 250 words).
2. Statement of how your with thesis, dissertation or project aligns with the purpose of the scholarship 60 Points (maximum 1000 words).
3. Reference Letters 30 Points (10 points per letter). One reference must be from the candidate's major supervisor. References are to:
 - a. Show that they are knowledgeable of the applicant and their thesis/dissertation project;
 - b. Address how the applicant's project meets the purpose of the scholarship; and
 - c. Email their letters in pdf format directly to the College's Administrative Officer at admin@cab-bc.org
