

Intermediate Aquatic Biologist

Calgary, Alberta

Jacobs is one of the world's largest and most diverse providers of technical professional and construction services across multiple markets and geographies. We value professional excellence, integrity, diversity in the workplace and fostering an open and collaborative working environment. We have attracted and retained clients by providing superior customer value—in fact, over 90 percent of our work is repeat business from loyal clients. As a result of our sound business strategy, we are prospering in diverse markets worldwide. Our global network includes more than 200 offices in over 25 countries.

We are looking to recruit an intermediate aquatic biologist, to join the team in our Vancouver or Calgary office. The successful candidate will support the execution of the work, including baseline data collection efforts and methods, development of technical reports and regulatory applications. The Intermediate Aquatic Biologist may also be called upon to liaise with clients, regulatory authorities, stakeholders, and Indigenous communities on the work. This is a science-based role, and the successful candidate will have a strong reputation in the industry as a technical expert, and a proven ability to defend the technical rigor of the work completed. If you're up for the challenge, we've been looking for someone just like you. Join our team and help us lay the foundation for human progress.

Basic Qualifications:

- B.Sc. or M.Sc degree in fish or aquatic-related studies with a minimum of 7 years of directly relevant experience conducting and managing aquatic studies (such as fish and fish habitat assessment and water quality monitoring);
- Strong field skills and two or more years of leading and managing aquatic crews in remote settings;
- Excellent technical writing skills and experience providing technical review and edits as required;
- Relevant oil and gas and regulatory experience;
- Hold or be eligible for Professional Designation under the BC College of Applied Biology and/or the Alberta Society of Professional Biologists.

CH2M is now Jacobs, join us and love what you do. Focus on tackling the toughest challenges with a smile as you support the development of life-changing infrastructure that improves communities across western Canada. See the inherent value in your point of view as you deliver for our clients.
