

Cascade Environmental Resource Group Ltd. has an opening in our Squamish office for a qualified **Intermediate Level Biologist** to join our team.

The successful candidate will hold the designation of **Registered Professional Biologist** and will have a minimum of five years experience in the following areas:

- Habitat ecology
- Field biology
- Vegetation inventories
- Wildlife inventory and/or fisheries and aquatic habitat assessments
- Riparian Area Assessments
- Resource Management
- Canadian and British Columbia environmental assessment approval processes
- Study design and implementation
- Project management, cost estimates and proposal writing
- Preparation of formal reports and regulatory approval applications

If you possess a combination of these skills and have excellent communication and organizational skills, please apply with a resume and cover letter to info@cerg.ca
