Manager, Environmental Sciences

Vernon, B.C.

Associated Environmental Consultants is part of the Associated Engineering Group of companies; employee-owned, Canadian and one of Canada's Best Managed Companies. We provide a wide range of environmental consulting services to a client base that is well diversified between public and private sectors. Our environmental science and management services are well integrated with those of our engineering colleagues, providing opportunities to work with talented people across disciplines and throughout western and northern Canada.

We currently have an opening for an Environmental Planner in our Vernon office.

The successful candidate will work closely with industry and governments on land development projects and navigate local and provincial regulatory processes to facilitate solutions to complex planning issues. You will have the opportunity to advance your career and collaborate with a multi-disciplinary team.

At Associated, we seek to provide employees with constructive feedback to foster their career growth and provide opportunities for advancement within the organization. We also offer a culture that promotes entrepreneurial spirit within the stability of a well-established company. We value people with innovation and spark, and encourage individual ownership of projects and building relationships with clients. Our firm is a leader in sustainability, evidenced by being certified as Carbon Neutral since 2009 and by our ISO 14001 certification.

Professional designation (R.P.Bio. with the College of Applied Biology) or eligibility to become registered is a requirement of this position.
