**Duties will include:**

Participation in and/or leading environmental field surveys/assessments  
Preparation of environmental survey/assessment reports, and regulatory review submissions  
Environmental monitoring  
Support for company activities

**Basic Qualifications / Competencies / Availability**

Registrant in good standing with the College of Applied Biology (CAB), or CAB registrant eligibility  
Demonstrated report/submission writing ability  
Ability to participate in strenuous physical activity  
Ability to work outdoors, including in challenging physical conditions, on the water in small vessels, and during inclement weather  
Available for flexible workdays, including occasional out of town work

**Asset Qualifications / Competencies**

CAB R.P.Bio. registrant status  
Experience conducting environmental field surveys/assessments  
Experience writing environmental assessment reports  
Experience preparing submissions for regulatory review  
Environmental monitoring experience  
SVOP certification  
Diver certification (Big plus: WorkSafeBC and/or DCBC SCUBA certification)  
RAPR Primary QEP certification

**Our company**

Balanced's office is situated in North Vancouver. Balanced and our associated business units, Foreshore Technologies and Ocean Tech Constructors, are a tight-knit group of companies. We offer competitive compensation and benefits, and continuing professional development (CPD) and career development opportunities. We have been providing a broad range of environmental and marine services in British Columbia and elsewhere since 1984.

We look forward to hearing from qualified applicants. Please send your résumé and expression of interest covering letter by e-mail to York Furstenwald (york@foreshore.ca), with "Biologist / Ecologist Position" in the subject line. We thank all applicants for your interest; we will only contact those selected for an interview.
