

CASCADE ENVIRONMENTAL

RESOURCE GROUP LTD

Cascade offers a wide range of environmental consulting services throughout British Columbia, Alberta and the Yukon.

Cascade is seeking a qualified **Intermediate Biologist** eager to take the next steps in their career development by joining our supportive team of local experts. The Biologist will manage, co-ordinate and conduct a variety of projects. This job opportunity offers a mix of office and field work where no week is the same.

Role to co-ordinate and conduct, contribute to:

- Proposal Writing
- Permit, license, authorization, and approval applications
- Desktop and field assessments of aquatic and terrestrial habitats
- Field Surveys (e.g., bird, invasive species, site bioinventory)
- Data compilation, analysis, and reporting
- Client meetings & stakeholder engagement
- Technical Report Writing
- Monitoring (e.g., construction and development projects)
- Habitat Restoration
- and more.

Who are you:

- Proven work experience as a Biologist or similar role
- B.Sc. or M.Sc. in biology or similar/ equivalent
- Professional designation with an organization such as the BC College of Applied Biology (Q.E.P status)
- All rounder, keen to work in lots of different areas
- Ability to work independently and as part of a team
- Willingness to occasionally travel to complete projects
- A team player who is willing to contribute to office management
- A desire to mentor and an interest in managing
- Excellent communication and organizational skills
- Located in Squamish (preferred) or Whistler or willing to relocate

This opportunity suits a candidate looking to gain project design and management experience, as well as seeking to specialize in one of our areas of expertise.

If you possess a combination of these skills and are looking for a career with meaningful and challenging work, visit our website for more detail, www.cerg.ca, and apply at info@cerg.ca

We live and play where we work.
