

Aquatic Ecologist Surrey, BC

ENKON ENVIRONMENTAL LIMITED

ENKON Environmental Ltd. is currently seeking a full time intermediate to senior **Aquatic Ecologist** to join our team in our Surrey office. Ideal candidates will have a university degree in Biology, Environmental Science, Geography, Environmental Restoration, Forestry, or related degree with a technical environmental diploma. Ideal candidates will also have relevant work experience in the field of aquatic inventory and impact assessment.

Position:

You will be assisting ENKON staff in preparing environmental impact assessments; instream work permit applications, monitoring, and reporting; environmental management and restoration plans; erosion and sediment control plans and monitoring. Your role will require you to plan field assessments; collect biophysical data in the field; analyze field data; and prepare reports and recommendations. The majority of your work will be in the lower mainland region.

Qualifications:

- University degree in Environmental Biology, Environmental Science, Geography, Forestry, Environmental Restoration, or related degree combined with a technical environmental diploma
- Experience in watercourse assessment and classification (eg. Riparian Areas Regulation Detailed Assessment)
- Experience submitting Water Sustainability Act/Regulation Notifications and Approvals
- Experience collecting geographic information in the field and preparing project maps/figures
- Technical report and proposal writing experience
- Must possess good oral and written communication skills (in English).
- Must have a driver's license and vehicle for transport to field locations
- Registered as RPBio, RPF, RFT, or PAg
- Minimum of 5 years applicable experience

Wage: Commensurate with experience.

Closing Date: 5 pm, May 20, 2019
