

INTERMEDIATE HABITAT BIOLOGIST

Vancouver, British Columbia

Phoenix Environmental Services Ltd. is an established, reputable environmental consulting company with under 10 employees located in Vancouver. Phoenix Environmental provides our land developer and local government clients with reliable and responsive results by being technically proficient and wise with respect to the highly variable regulatory environmental requirements relating to urban development in the Lower Mainland of British Columbia. We support those regulatory requirements aimed at environmental conservation and enhancement in a rapidly growing metropolitan population within an increasingly scarce landscape suitable for urban growth. We help our clients meet the urban growth needs in our market while meeting environmental needs.

Phoenix Environmental conducts habitat assessments, environmental impact assessments, stream assessments, bird assessments, invasive species assessments, erosion and sediment control monitoring, and contaminated site investigations.

We are seeking:

- Intermediate Habitat Biologist
- Excellent knowledge of fish habitat and biology, and/or wildlife habitat including species at risk
- Thorough knowledge of British Columbia (Southwestern, especially) vegetation, fish and wildlife populations, and the geo-climatic ecological attributes of B.C is essential.

Key Responsibilities:

- Being a self-starter and a team-oriented professional with excellent written and communication skills
- Conducting Habitat Assessments, Environmental Impact Assessments
- Recording data and observations in an accurate and well-organized manner
- Preparing Proposals and Cost Estimates, technical reports, regulatory approvals, permits, and licence applications
- Liaising with clients, regulators, and contractors
- Managing tasks and projects according to approved scopes of work, and delivering quality reports on schedule and within budget
- The qualified candidate is expected to contribute leadership to the group by providing supervision, training, technical direction, and mentoring to more junior staff

Capabilities and Credentials:

- Registered Professional Biologist (R.P.Bio) accreditation
- Knowledge of British Columbia wildlife, including mammals, amphibians, reptiles, and birds
- Strong sense of ethics, and work and organizational commitment
- Excellent written and verbal communication skills
- Driver's license

- 5-10 years of relevant experience (Consulting experience is expected, but government experience will also be considered)
- Proficiency with AutoCAD is an asset
- Project management and costing experience
- Entrepreneurial motivation

If you are looking for a challenge in a great, friendly, respectful work environment, and have the qualifications and experience and the drive, we invite your application.

Phoenix Environmental offers competitive salaries and group benefits. Salary will be commensurate with experience and qualifications. Applicants must state salary expectations in order to be considered.

Please send your resume and cover letter to: info@phoenixenvironmental.com

We wish to thank everyone for their interest in Phoenix Environmental; however, only those selected for an interview will be contacted.
