

Intermediate Terrestrial Ecologist

Grande Prairie, AB

Down to Earth Biology

EDI is an employee owned company that has been in business for 25 years with offices across western and northern Canada. EDI provides science-based environmental consulting services and products to all major natural resources sectors, First Nations, and government.

Why is EDI right for you?

- Our core focus is Aquatic and Terrestrial biology.
- We maintain a unique company structure based on interdisciplinary teamwork that fosters a high rate of employee retention.
- We operate on the core principles of providing high quality service, open communication, mutual respect, and a safe work environment.
- We are committed to the long-term development of our people and, therefore, provide opportunities and support for professional advancement (e.g., internal mentorship, professional development budget, annual field gear allowance).

EDI is seeking a qualified team member with a professional background in terrestrial ecology, experience in project management and business development, and a proven track record of delivering effective project outcomes and solutions. The successful candidate will be responsible for project design and implementation/logistics, data collection and management, technical reporting and proposal writing, and client liaison and communications.

Our ideal candidate has:

- A minimum of 5 years' related consulting experience (or equivalent).
- B.Sc. degree in biology or related discipline(s); M.Sc. would be an asset.
- Registration or eligibility for registration as R.P.Bio., P.Biol., or P.Ag. (or similar)
- Knowledge and experience of terrestrial ecology in western Canada, such as soil science, vegetation ecology and taxonomy (including listed species), Terrestrial Ecosystem Mapping, wetland ecology, and/or reclamation.
- Experience in a variety of sectors, including upstream oil and gas, pipelines, transportation, mining, renewable energy and/or urban development.

Additional qualifications should include:

- Record of conducting field work productively and safely.
- Project management and client liaison experience.
- An operational knowledge of provincial and federal regulatory requirements and processes.
- Sound communication, organizational and time management skills.
- Self-motivation and an ability to respond in a fast-paced environment.
- Experience and interest in mentoring staff and providing support/supervision.
- Willingness to travel for field work in remote locations and/or between offices.
- Class 5 driver's licence.

If you are ready for new challenges and a positive career experience, please email your resume in confidence by April 30, 2019 to: employment@edynamics.com with **GP0430** in the subject line.

Applicants will be considered as their resumes are received and may be requested for an interview prior to the closing date. Only candidates requested for personal interviews will be contacted. Should an individual with the required qualifications not be available, applicants with closely related qualifications may be considered. As a result, the position may be reclassified and offered without reposting.
