

Jr. Environmental Technician/Biologist

Grande Prairie, AB

Down to Earth Biology

EDI is searching for a Junior Environmental Technician or Biologist to join our team of experienced professionals for a summer or longer-term position. The successful candidate will assist in baseline terrestrial and aquatic studies, wildlife and fisheries inventory, water quality monitoring, environmental impact assessments and environmental monitoring - all under the supervision/mentorship of our intermediate and senior professionals. They will primarily conduct technical fieldwork and contribute to project logistics, data management (QA/QC) and technical reporting.

Our ideal candidate will have a strong aptitude for working in a team environment. They will have sound written and interpersonal communications skills, along with the following:

- Currently enrolled in or recently completed a bachelor's degree in a related discipline.
- 1 year of related experience.
- Comfortable with field work in remote locations and/or travel between offices.
- Class 5 driver's licence.

Additional assets would include interest, experience and/or education that complement our Aquatics and Terrestrial teams, such as:

- Soil Science - soil classification for land capability and pre-, post-disturbance assessment.
- Plant identification - vegetation surveys, invasive and noxious weeds.
- Wildlife - wildlife sweeps, species-specific surveys, migratory bird and raptor nest surveys.
- Wetland - identification and delineation.
- Fisheries - fish and fish habitat assessments, fish identification and fish sampling.
- Environmental monitoring - for construction.

Eligibility to the College of Applied Biology

EDI is an employee owned company that has been in business for 25 years with offices across western and northern Canada. EDI provides science-based environmental consulting services and products to all major industrial sectors, First Nations, and government. Why is EDI right for you?

- EDI's core focus is Aquatic and Terrestrial biology.
- We believe that one of our greatest successes is our unique company structure, one which has fostered a terrific team environment and a very high level of employee retention.
- We operate on the core principles of quality and innovation, open communication, mutual respect, and safe work environment.

If you are ready for new challenges and a rewarding experience, please email your resume to: employment@edynamics.com with **GP0422** in the subject line. Applications will be considered as soon as they are received until April 22, 2019. Only candidates requested for personal interviews will be contacted. Should an individual with the required qualifications not be available, applicants with closely related qualifications may be considered. As a result, the position may be reclassified and offered without reposting.
