

Total Resource Management

Facilitating environmental sustainability for the benefit of communities and future generations

Professional Biologist – Full Time Position Cranbrook, BC

Maple Leaf Forestry Ltd. (MLF) is a well-established natural resource consulting company based out of **Cranbrook, BC**. We provide professional and technical forestry/environmental services to government and industry clients throughout the Kootenay Region with temporary assignments elsewhere in British Columbia.

MLF promotes a culture of **professionalism, continuous improvement** and a **balanced work and personal life focus** on enhancing ones' **quality of life**.

Maple Leaf Forestry has a senior level full -time employment opportunity available for the right candidate.

Preferred Education, Experience, and Capacity:

- Currently registered with the College of Applied Biologists of BC as a RPBio or eligible to become one within a year (with support from MLF).
- Capacity to manage projects including people, safety, budgets and equipment.
- Ability in writing proposals and networking to acquire new Clients, diversify in-house areas of expertise, and foster working relationships with First Nation communities.
- Willingness to sponsor eligible team members to acquire professional designations through the College of Applied Biologists of BC and certifications/training towards professional diversification.
- Sound knowledge of environmental legislation and standard environmental operating processes.
- Capacity to draft professional reports, liaise with project Clients and specialists and provide professional peer review/quality control of report deliverables.

Maple Leaf Forestry Ltd. offers competitive remuneration and an opportunity for **professional growth** and **diversification** for ambitious individuals as well as a place for experienced professionals looking to gradually transition into retirement.

Standard work shifts are **Monday to Friday** with all **Stat Holidays off**. We offer a **friendly, healthy** working atmosphere with a team of **skilled natural resource management professionals working together** to provide a team approach in delivering the best value to our Clients.
