

Where ideas work

## **Ministry of Forests**

### **100 Mile House, Quesnel, Williams Lake (Hybrid)**

Applicants who do not fully meet the required qualifications may be considered for this position, but at a lower classification.

### **Research Wildlife Ecologist**

**\$75,552.53 - \$86,175.83 annually**

The Ministry of Forests is responsible for the stewardship of provincial Crown land and ensures the sustainable management of forest, wildlife, water and other land-based resources.

The Research Wildlife Ecologist is a scientific advisor in natural resource management for the Cariboo-Chilcotin region. The successful applicant will conduct applied research to support science-based decision-making and provide expert professional advice on wildlife species – habitat relationships within the ecosystems of the Cariboo region. This position identifies needs, conducts research and prepares extension materials related to forest management effects on stand structure and landscape pattern, habitat supply modelling, indicator species and species at risk habitat supply models and other general wildlife ecology enquiries.

#### **Qualifications for this role include:**

- Thesis-based M.Sc. or higher, specializing in Wildlife Ecology, Zoology or closely related specialty, or equivalent education and experience.
- Registration or eligible for registration as a Registered Professional Biologist with the BC College of Applied Biologists.
- Demonstrated experience planning and implementing research projects.
- Preference may be given to applicants with experience summarizing and communicating research and/or specialized scientific information orally and in writing to gain understanding of experts and non-experts.
