

Where ideas work

Ministry of Water, Land and Resource Stewardship Smithers (Hybrid)

The recruitment process for this competition may take place virtually. Flexible work options are available; this position may be able to work up to 2 days at home per week as per the Telework Agreement.

Aquatic Habitat Biologist

\$73,855.42 - \$84,134.34 annually + \$32.89 bi-weekly isolation allowance

The Ecosystems Section of the Land Use Policy, Planning and Ecosystems Division provides the technical expertise to support fish and wildlife habitat initiatives, and advance conservation and co-management in BC.

This position works to advance fish and aquatic habitat management and conservation in the Skeena Region. Regular work in deep collaboration with Indigenous groups will be an integral aspect of the job. The successful candidate's expertise in fish and aquatic habitat, habitat restoration, watershed management, and fish biology will be applied to a wide range of fish and aquatic habitat management projects and programs within the Skeena Region.

The BC Public Service is committed to creating a [diverse workplace](#) to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

Qualifications for this role include:

- Undergraduate Degree or higher in biological sciences or equivalent (e.g., natural resource management, ecology, zoology, hydrology, forestry, etc.) and 2 years of related experience*
- Registered (or immediately eligible) as a Registered Professional Biologist (RP Bio) in B.C. with the College of Applied Biology within 6 months of employment.

NOTE: Immediately eligible is defined as being registered as a Professional Biologist (RP Bio) with the College of Applied Biology within 6 months of appointment. Confirmation of registration/eligibility will be required before an offer of employment can be confirmed. If you are not currently registered, advise how you have confirmed with the CAB that you are immediately eligible.

***2 years of experience in each of the following, or a combination totaling 2 years:**

- Experience in conducting environmental monitoring and assessments.
- Experience in field-based biological sampling, analysis, and reporting.
- Experience providing advice within a regulatory regime.
- Experience collaborating and/or consulting with First Nations on resource management issues.
