

Discipline Committee Report

The Discipline Committee had a relatively busy year in 2016, receiving 3 formal complaints, which required 4 meetings via conference call and 1 half-day in-person meeting. The Discipline Committee sought legal advice on 1 file and hired external investigators for 2 files. Two files remained open at the close of 2016 and were therefore carried over to 2017. These discipline files are in addition to the range of enquiries and requests received by the College's Executive Director and Registrar from both members and the general public regarding potential complaints that did not result in a formal complaint to the Discipline Committee. In most, but not all cases, the theme of the complaints and the enquiries to the office pertained to professional misconduct. Members are reminded to adhere, and pay close attention, to the conduct of their professional practice as both our colleagues and the general public expect that we conduct ourselves with the highest level of integrity and scientific standards, which is also further detailed in the College's ***Code of Ethics*** (Schedule 2 of the ***College Rules***).

Summaries of the aforementioned files are presented in the ***Discipline Digest*** page of our website. The Discipline Digest provides members and the public with a snapshot of issues that are brought forward to the College. Publication of this information contributes to fulfilling our duty as a self-regulating profession and demonstrates accountability and transparency.

I would like to thank the members of the Discipline Committee for their dedication and diligence to the issues brought forward: Lee Nikl, RPBio; David Ormerod, RPF; Rick Page, RPBio; Timothy Smith, PGeo, EngL; and Barbara Thompson, LLB, RPBio. **CM**

Respectfully submitted,
Mel Kotyk, RPBio, Chair - Discipline Committee

Nominations Committee Report
