

Biologist
Environmental Science
Richmond, Abbotsford, Victoria or Kelowna, BC

Today is the day to boost your career! Pinchin is seeking a Biologist to join our Environmental Science team in one of our British Columbia offices.

Reporting to the Operations Manager, the Biologist will complete field assessments and reports for the environmental assessment, permitting, and monitoring of development and infrastructure projects in the Lower Mainland/Fraser Valley and throughout BC.

Our Team

We are an entrepreneurial and passionate team of professionals that needs to expand to keep up with the increasing demand for our technical services. We are a team of collaborators who support each other's successes, share ideas, balance workloads and value learning from one another. As a group, we value hard work but also support work-life balance and the wellbeing of our teammates.

We are looking to welcome someone who enjoys working in a positive and close-knit team environment!

A Day in the life of a Biologist at Pinchin:

- Designing, planning, participating in and/or leading field work in aquatic and terrestrial habitats including:
 - Watercourse mapping and assessments
 - Riparian habitat assessments
 - Wildlife and wildlife habitat assessments
 - Nesting activity surveys
 - Fish and other aquatic life form sampling
 - Salvage and relocation programs
 - Invasive plant and noxious weed control
 - Species at risk assessments
 - Habitat restoration projects
- Compiling, managing, and interpreting data
- Technical report writing including environmental permitting applications and supporting documents
- Fostering and maintaining positive relationships with clients and team members

What you bring to the Pinchin team:

- A minimum of 6 years of relevant experience within environmental consulting and/or regulatory agencies (or equivalent experience)
- A degree or diploma in Biology, Forestry, Natural Resource Management, Fisheries Science or a related discipline (or equivalent combination of education and experience)
- Registered or ability to register with the College of Applied Biology (i.e., as a Registered Professional Biologist or B.I.T.) an asset
- Applied experience and skills identifying BC flora and fauna (vascular plants, birds, reptiles, amphibians, mammals, insects, and/or fish), identification of Species at Risk and habitats, and delineation of habitat types are considered assets
- Proven ability to safely lead field assessments of two to four people in a variety of settings and conditions
- Ability to collect, compile and analyze data from a variety of sources (e.g., community mapping networks, government databases, monitoring equipment, field assessments)

- Working knowledge of local government environmental bylaws, Provincial *Water Sustainability Act*, *Riparian Areas Protection Regulation*, *Wildlife Act*, *Federal Fisheries Act*, *Species at Risk Act*, *Migratory Birds Convention Act* considered assets
- Highly organized with the ability to coordinate multiple project deliverables within time constraints and budget limitations
- Strong technical writing skills in a consulting or regulatory environment (or equivalent)
- Electrofishing certificate, wilderness and natural areas skills/experience are considered assets
- Experience in the design and/or assessment of aquatic or riparian habitat for compensation considered an asset
- Ability to work in Canada with a valid Canadian driver's license

What's in it for you:

Of course, we offer competitive salaries and great benefits, but what makes Pinchin stand out from the crowd? Above all else, we care about our employees and the world around us! Our employees enjoy mentoring and career development programs, opportunities for community involvement including many environmental initiatives, a casual dress code, paid personal days, three weeks' paid vacation to start, reimbursement for association membership dues, wellness spending account, social activities, team building events, corporate hotel rates and much more! All of this and more in an inclusive, dynamic work environment! Take a look to see all Pinchin has to offer: [Pinchin Benefits](#)

Please note that our recruitment process may involve online testing, depending on the position. As an employee of Pinchin, you will be required by our clients to undergo security clearances and, periodically, drug and alcohol testing in order to gain access to certain job sites. We thank all applicants for their interest in a career at Pinchin however, only those selected to continue will be contacted.

**** No agency phone calls please****

Why Pinchin?
